CIVITAS FastTrack
2030

BRINGING IN EXTERNAL INPUTS

BOTTOM-UP NEEDS ASSESSMENT

ASSESSING INNOVATIONS AND THEIR PERFORMANCE

- Meet The FastTracker events
- Database of suppliers
- External expert inputs and knowledge

AIM:

FastTrack aims to speed-up local roll-out of sustainable mobility innovations.

APPROACH

OUTPUT:

All 24 FastTrack local areas produce Innovation Deployment Plans.

CAPACITY-BUILDING IN TOPICAL CLUSTER

Urban logistics and clean fuels

New mobility and active travel

Public transport

Multi-modal traffic management

- 4 clusters, with two sub-topics each (8 topical streams)
- Cross-cutting themes explored by all

****** Innovation means more than just new technology – FastTrack helps local areas implement mobility approaches, services, technologies, and processes that have never before been implemented in their local context, so are locally innovative.*
