

CIVITAS FastTrack Capacity Building Week 4

Engage and meet citizens

24–26 October 2022

Bologna (IT)

Programme overview

The fourth Capacity Building Week will be hosted by FastTrack Ambassador Bologna (Italy) from 24 to 26 October 2022. The FastTrack community is invited to join a three-day Late Summer school on the topic of stakeholder engagement and citizen dialogue. Through a set of co-creation workshops, the FastTrackers will have the opportunity to further exchange and learn about concrete examples of participatory processes. Guided by the Fondazione Innovazione Urbana and through the exchange with citizens who actively participated in participatory actions, the local affiliates will learn about ways to better engage with their users and citizens when deploying urban mobility innovations.

To be able to fully address the climate and mobility challenges as well as adopt appropriate solutions that arise from the integration of urban areas with their wider regional context, the participants will explore how the Municipality of Bologna is linked with its Metropolitan area through green corridors.

This time, the community will also come together to peer-review the deployment plans of their peers not only within their own cluster, but also to discuss these plans with LAs from other clusters. This will allow for more cross-cluster discussions according to the needs expressed by the local affiliates. Finally, the peer-review will be complemented by two plenary sessions to collectively develop recommendations on quick mobility innovation uptake.

Venue: Auditorium Enzo Biagi, Biblioteca Salaborsa, Piazza del Nettuno 3, 40121 Bologna
